DACOR

*Fine equipment makes
diving more enjoyable*

One Quality — FOR SAFETY, PERFORMANCE, DEPENDABILITY
MADE TO LAST A LIFETIME

DACOR REGULATORS

673 - 2659

MODEL R-4 "DIAL A BREATH"

The world's only Double Diaphragm two stage Regulator — offers double safety and performance. Either diaphragm can become ruptured or inoperative and regulator will continue to operate safely. Ten years of proven dependability and unequalled service free operation.

\$89.50

? Knife
? Short

MODEL C-2 "CLIPPER"

Also with "Dial A Breath" for adjustment to easier breathing, if desired. Two stage Regulator — Down stream second stage valve and large piston action diaphragm.

\$69.50

DACOR PAK

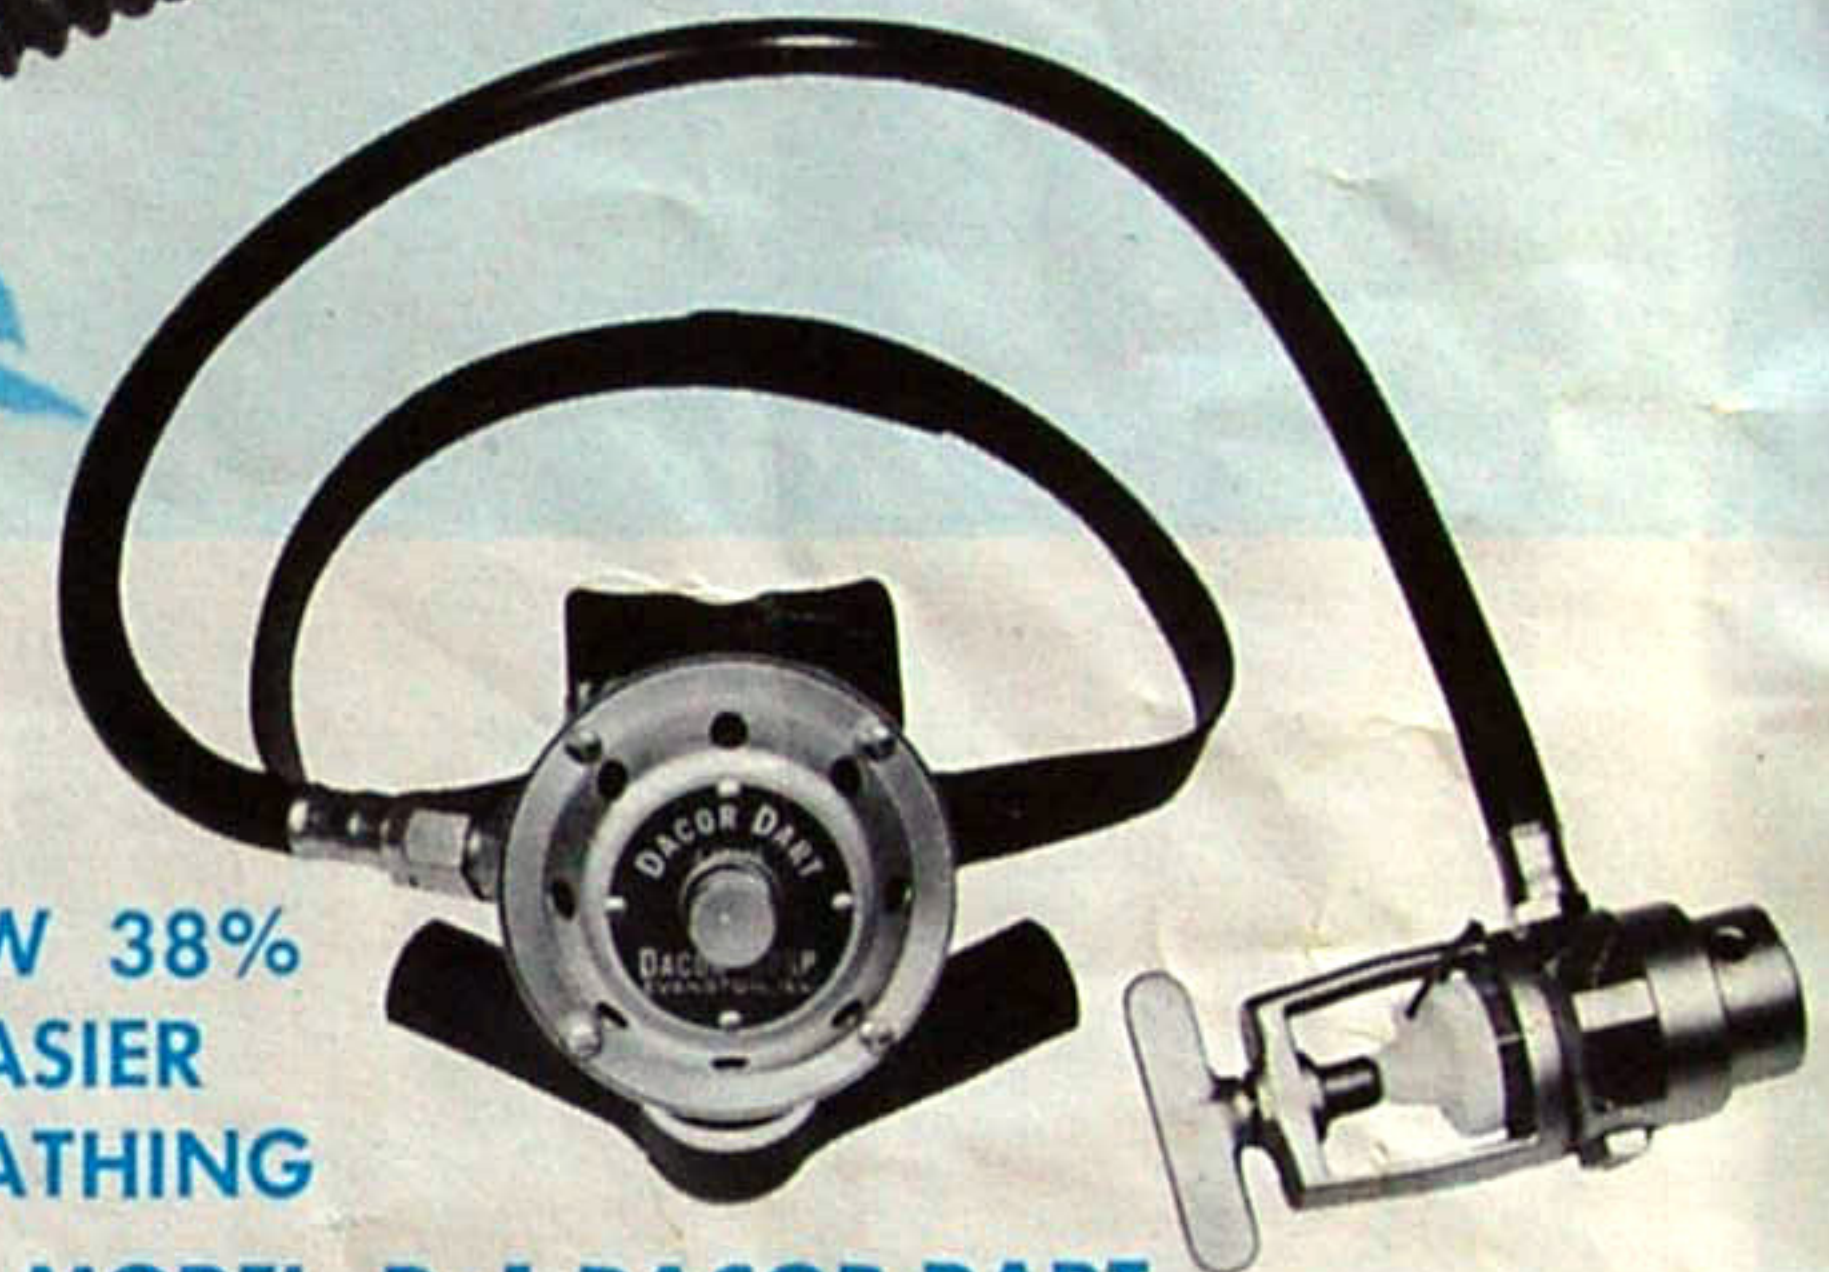

MODEL DP-1

Heavy die cast aluminum plate which has rugged side rails to prevent movement on tank. Held by double bands, bolts and nuts. High gloss baked enamel finish. Built-in hand grip for easy carrying — Nylon harness — Chrome plated brass hardware.

Model DP-1 For Single Tank Only **Cost \$10.95**

NOW 38%
EASIER
BREATHING

MODEL D-1 DACOR DART

The incomparable Dart has been tested in pressure chamber at depths to 7000 feet with perfect performance at all depths.

- The smoothest and easiest breathing regulator conceivable
- Large "Piston Action" diaphragm for easiest operation
- Demand valve lever operates on Teflon bearing for less friction and more uniform action
- So well designed and of such high quality materials that you may save the entire purchase price in repair expense alone. Safety not sacrificed for price **\$59.50**

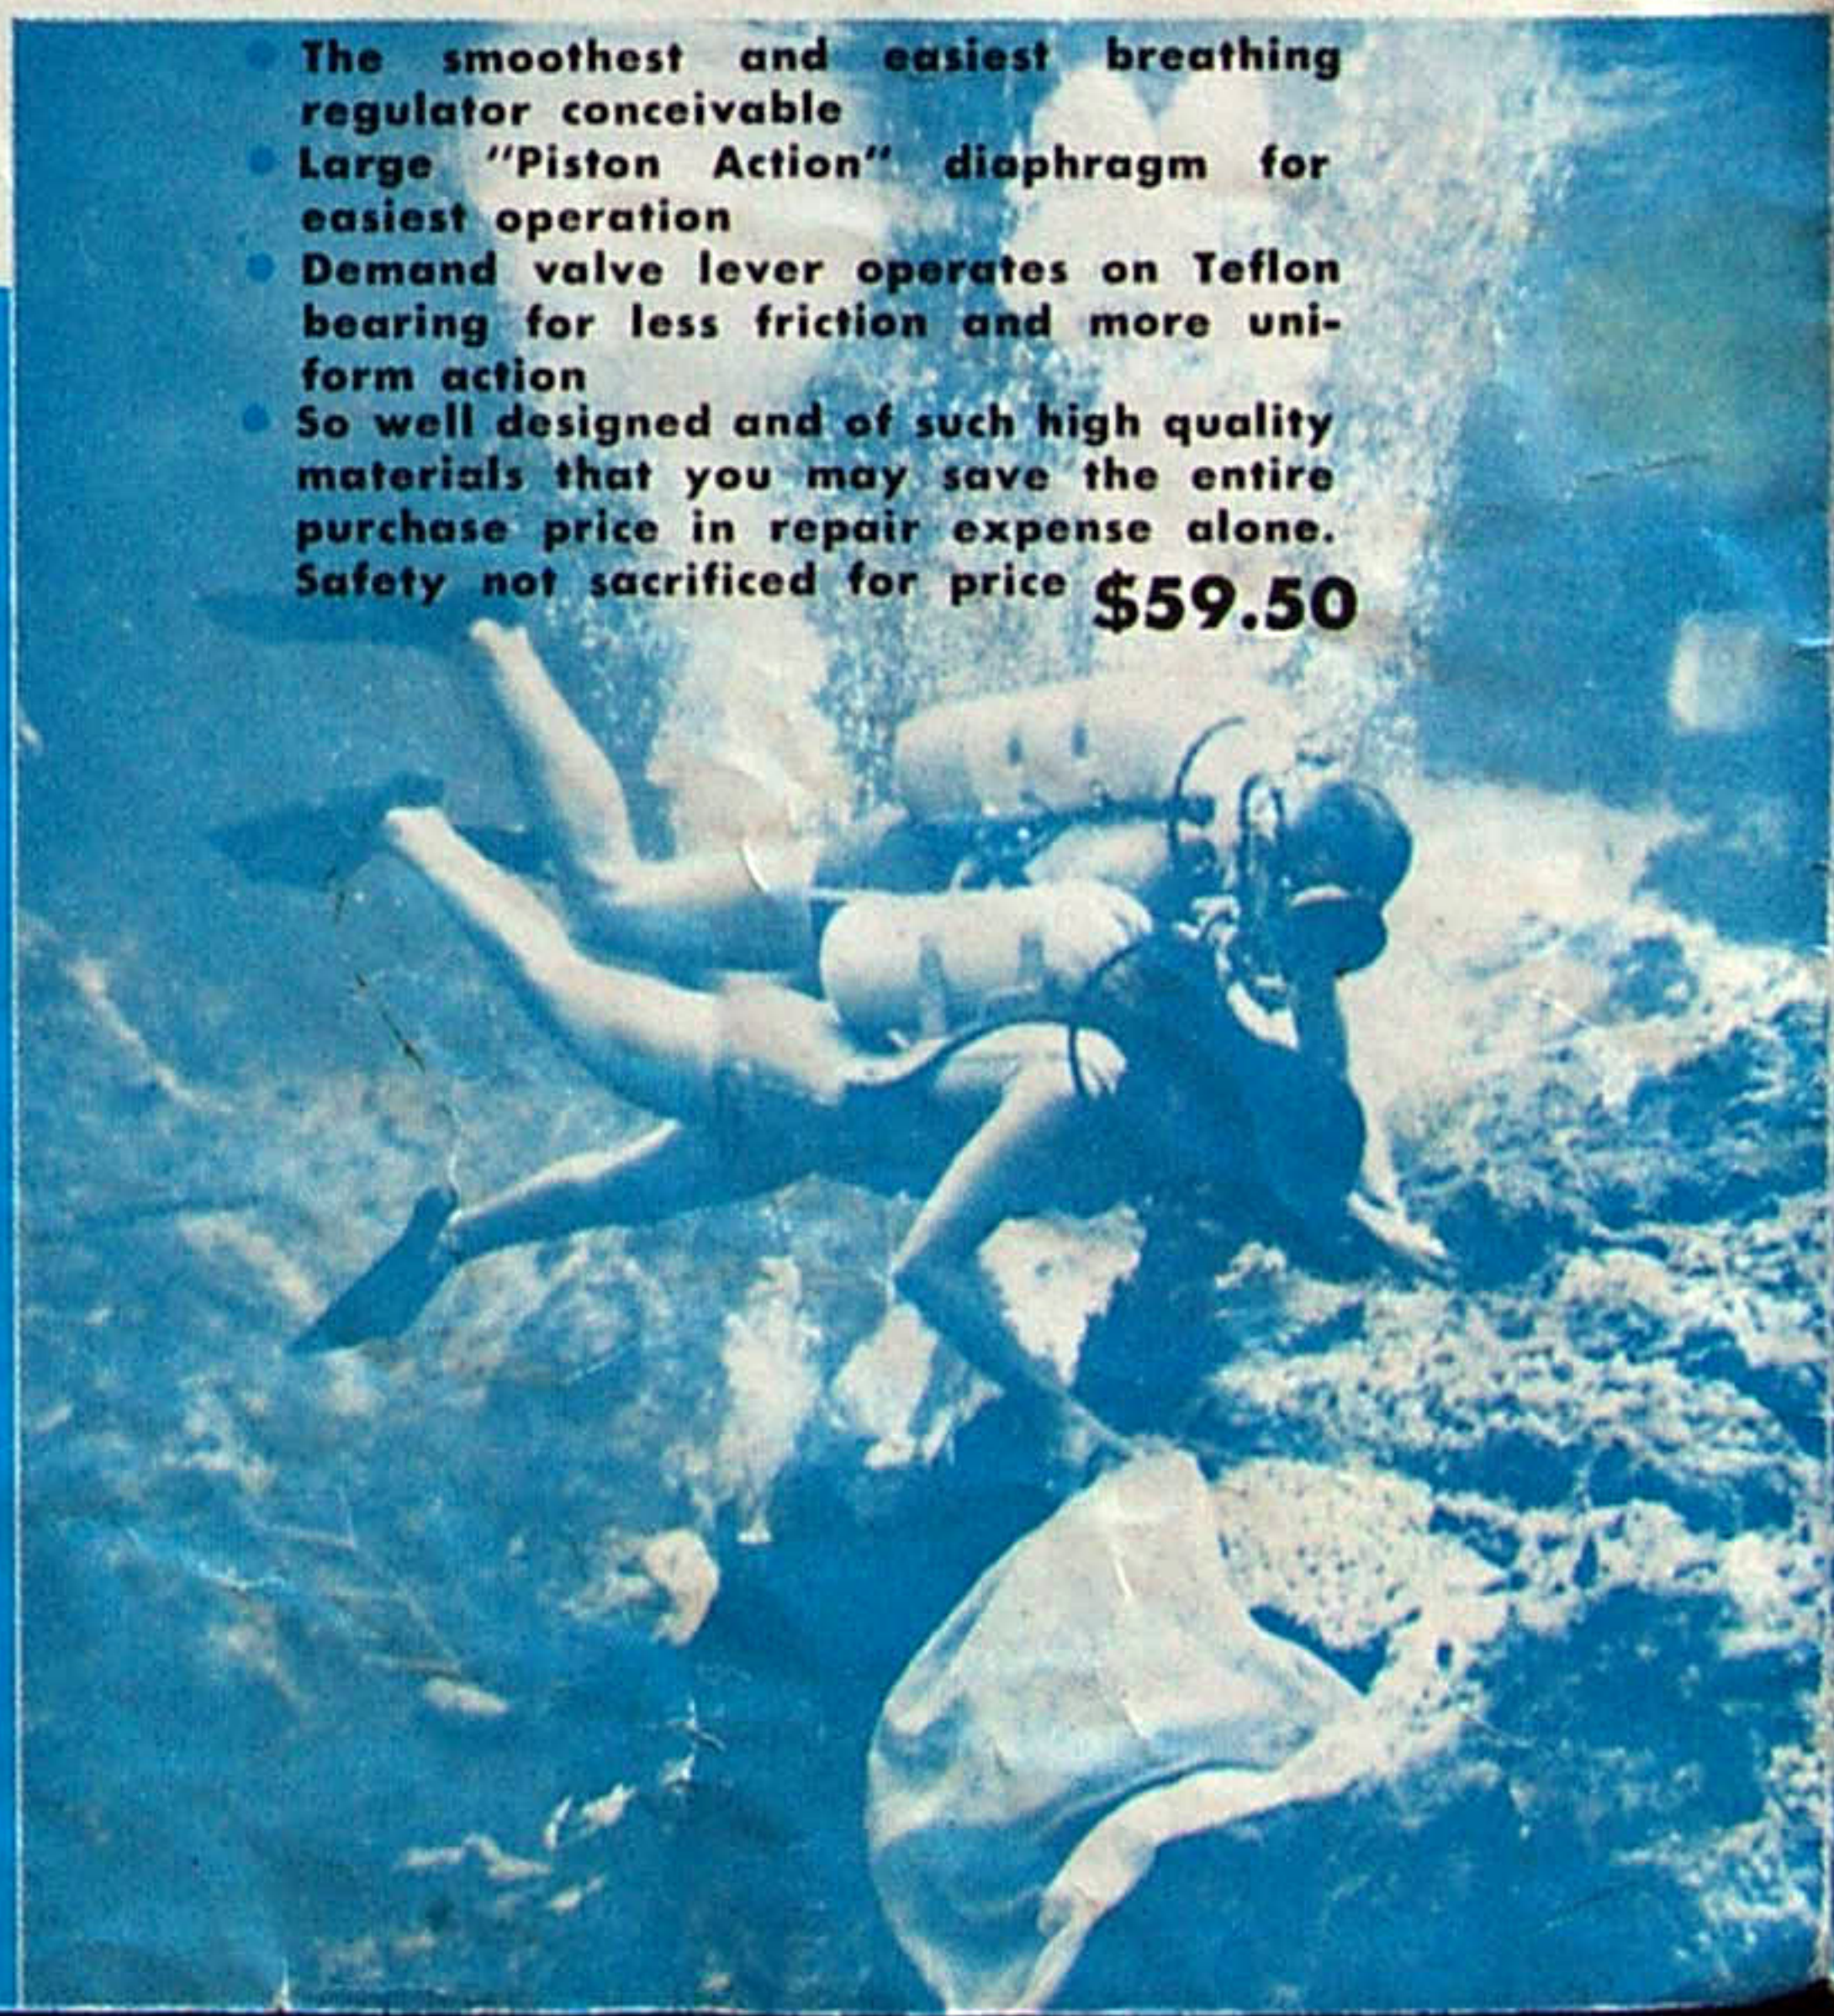

CUSTOM D-PAK

Model CDP-1 For All Single Tanks **\$19.50**
Model CDP-2 For Double Tanks **19.50**
Glossy "THERMO-COAT" finish.

The Custom D-Pak assembly has two bands which hold the tank more securely. The perfect contour design of D-Pak makes it possible to have one quick release only (Top Band) for fast removal of assembly.

When top band is drawn to a locking position, upper area of Pak moves closer to tank and bottom area moves slightly outward, thereby making both bands tight on tank. Adjustable for all sizes of diving tanks — Black nylon webbing — Heavy gauge aluminum back pak — "NO SLIP" slides prevent tank from moving when waist strap is unfastened.

The New and Sensational "Triton" Models

ANOTHER NEW PRODUCT BY DACOR

Incorporates a new and easy way to equalize with a slight upward movement of mask with hand or arm—The equalizer pads block nostrils completely—Now equalization of ears is real easy with gloved hands. A unique new rubber body with purge valve provides a perfect seal with no leakage—High quality soft rubber gives more comfort and better seal.

DM-12 With Purge Valve And "E" Pads \$6.95

DM-13 With Purge Valve Only 5.95

COLORS — Black Or Blue

"See-Rite" Models

Provides up to 20% more side visibility. A unique new rubber body with purge valve provides a perfect seal with no leakage—High quality soft rubber gives more comfort and better seal.

DM-14 With Purge Valve \$5.95

DM-15 Without Purge Valve 4.95

Slanted design for greater visibility. Tempered safety lens. Extremely comfortable face seal, designed to prevent leakage. Stainless steel retaining ring. Made of high quality blue or black rubber.

More masks of this type are used than any other

Model DM-10

\$4.95

"GLO-TOP" SNORKELS

"UNIVERSAL" MODEL UST \$1.95

Black rubber is compounded to resist sun, salt and ozone

Odorless and Tasteless

Molded mouthpiece which retains shape is the world's most comfortable

IRIDESCENT ORANGE TOP

The spiral flexible tube spins water out easier—Collapse proof tube will not crimp and shut off air. Unexposed long tube end is beveled to reduce water retention on exhalation—Also has the famous Dacor comfort mouthpiece.

"SPIRAL-FLEX" MODEL FST \$2.95

"Universal" Model

A COMPLETE NEW LINE —

"STREAMLINE" POWER FINS ... THEY FLOAT!

Complete foot protection. Open toe permits movement of foot to proper position for greatest comfort.

Designed like a shoe for maximum comfort and snug fit. No better quality rubber can be molded into fins—"Shiny" black color will retain "New Look" longer. Designed for excellent propulsion with the least possible muscle fatigue. High pointed rails give more thrust on blade.

Size 5-7 \$ 9.95

Size 8-9 \$10.95

Size 9-10 \$10.95

Size 10-13 \$12.95

KNIFE—

Heavy duty stainless blade with serrated edge for sawing. Finger grip cork handle with wide guard. Comes with heavy plastic sheath.

Model DK

\$3.95

WET SUIT - CUSTOM MADE QUALITY AND DESIGN - 3/16" or 1/4" NEOPRENE

3/16" \$67.00
1/4" \$72.50

Dacor suits are made to meet all specifications for quality, workmanship, durability and warmth — they are tailored with the same precision as with a hand made custom suit.

Made of highest quality closed cell Black Neoprene, the smooth outside skin is easier to keep clean and is not prone to become scratched or snagged. Interior is nylon, bonded by a new special process to neoprene, preventing separation from material and prolongs life of suit. No powder is necessary for entry or removal.

Extra heavy zippers on Jacket, Pants, Sleeves — Yellow striping on Hood and Boots. Hood made long to extend under jacket for extra warmth and comfort.

The "V" design under arms allows more freedom of arm movement.

The only jacket made without seams in the body.

Made in four sizes—complete with hood and boots

Complete With Hood and Boots
— Gloves Extra

Items separately priced:

	3/16"	1/4"
Jacket	\$31.50	\$34.00
Pants	29.50	32.00
Hood	4.00	4.50

Pull to Inflate

DACOR Accessories

FOR CHECKING TANK PRESSURE

EXCLUSIVE DESIGN By DACOR

DELUXE PRESSURE GAUGE

PG-C \$10.95

All brass construction, bright chrome plated. Body machined from solid brass bar stock. Forged yoke and screw. Large knurled relief screw for easy turning. Yoke swivels, enabling gauge to be turned for reading.

DEPTH GAUGE

"THIN LINE"

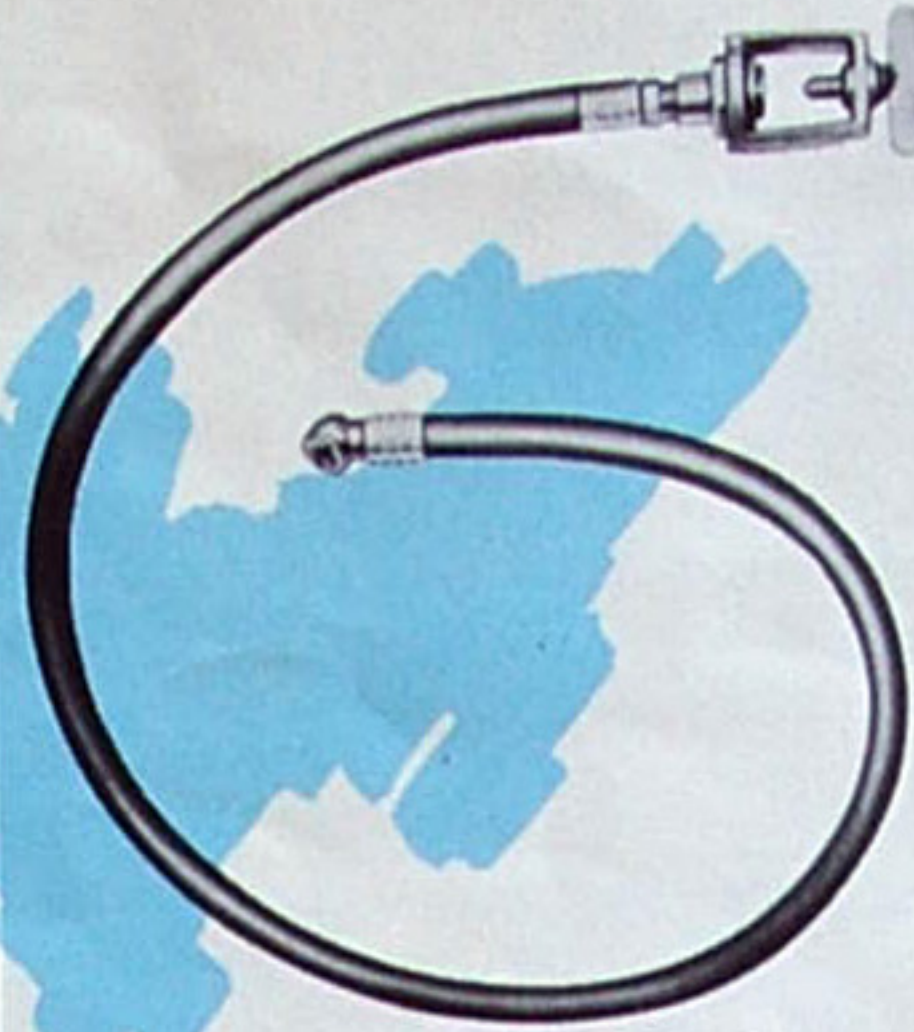

Now the perfect depth gauge — low height, compact, brass case, chrome plated. Accurate within 2%, all depths. Luminous dial — 100 ft. — 200 ft. models. Protected by one piece molded rubber case and strap. Fully guaranteed. Widely accepted because of thin design, appearance and comfort.

Models DGR-100 and DGR-200

\$10.95 each

ACCESSORY INFLATOR

Built-in restricted orifice to reduce air volume for slower inflation provides safety. For use in filling auto tires, inner tubes and other inflatable items. Attach to diving cylinder valve for inflation needs.

\$7.95

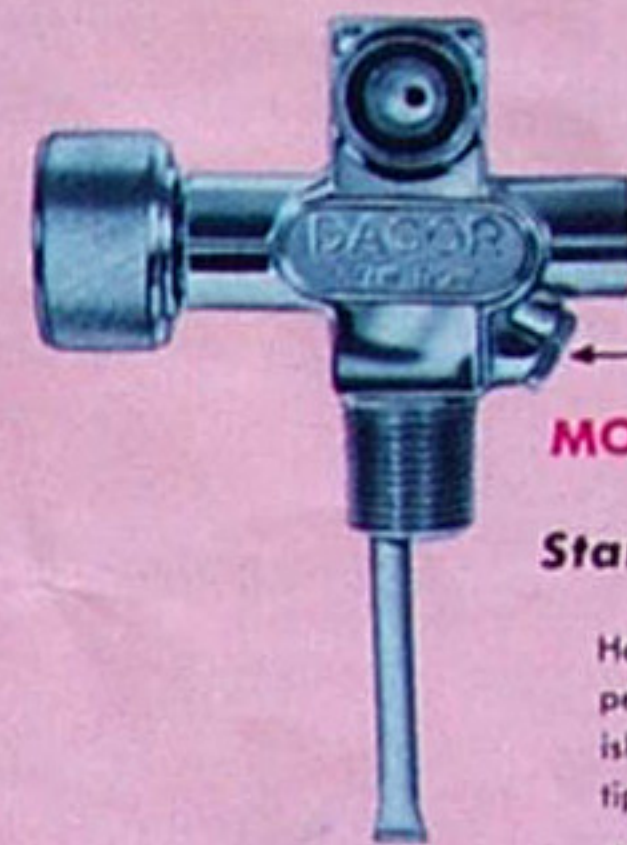

FAMOUS DACOR "LOW BOY" VALVES

"LOW BOY"

Spring loaded reserve valve. Bright chrome finish. Large round knurled shut-off knob. 300 P.S.I. reserve. New simplified design for accuracy and service free operation.

JLB-1 \$29.50

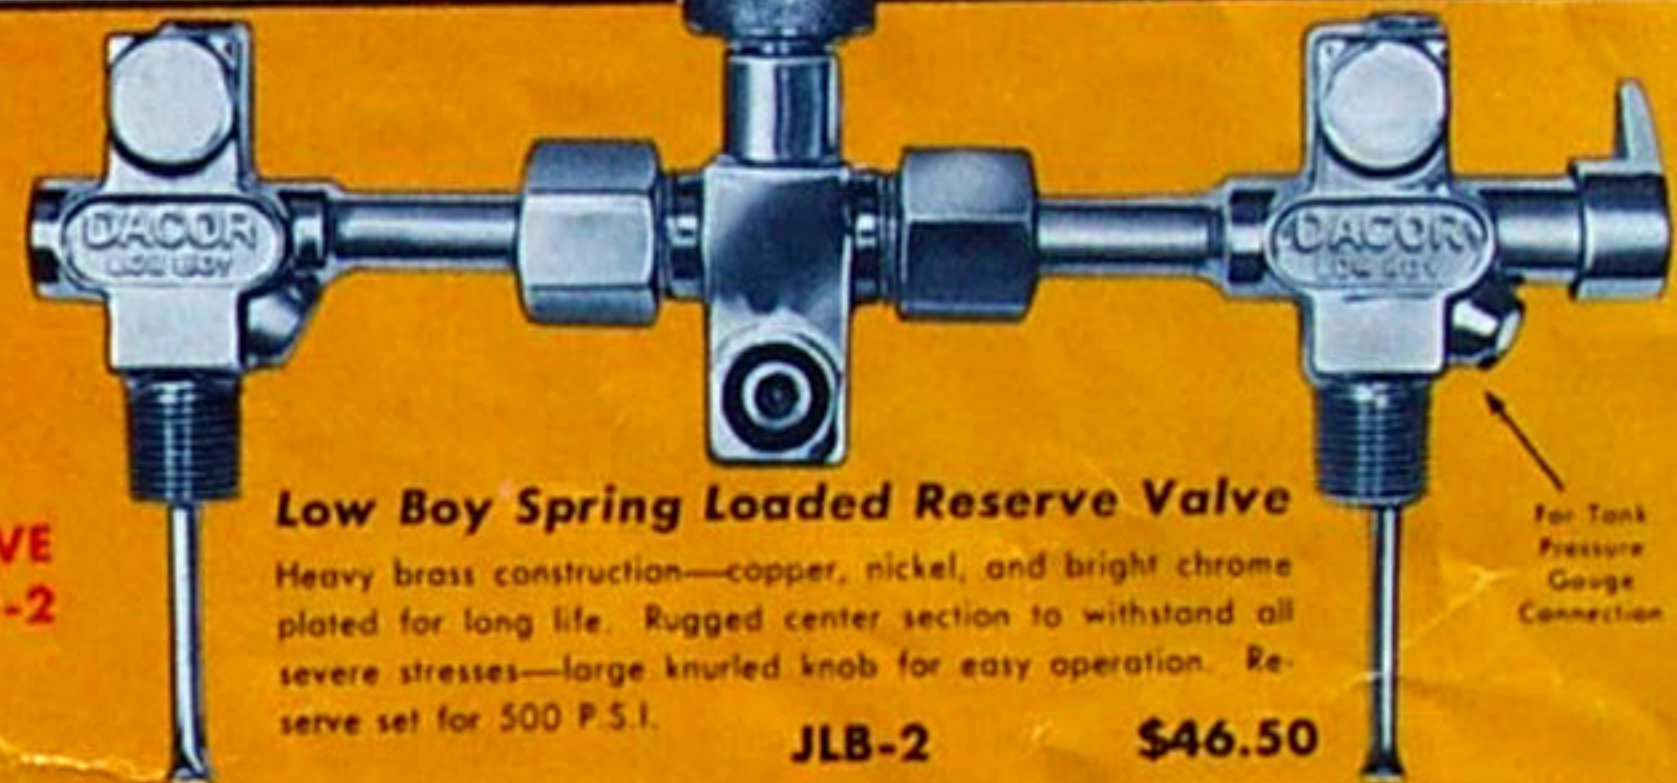

MODEL KLB-1 VALVE (No Reserve) Standard "K" Low Boy

Heavy brass construction with copper, nickel, and bright chrome finish—large knurled knob for fingertip operation.

KLB-1 \$11.95

For Tank Pressure Gauge Connection

DOUBLE TANK VALVE MODEL JLB-2

Low Boy Spring Loaded Reserve Valve

Heavy brass construction—copper, nickel, and bright chrome plated for long life. Rugged center section to withstand all severe stresses—large knurled knob for easy operation. Reserve set for 500 P.S.I.

JLB-2 \$46.50

For Tank Pressure Gauge Connection

DART PRESSURE GAUGE

Gauge is attached to harness for easy reading of tank pressures at all times. Rubber covered case for protection against damage. Attached to 1st stage connector.—10,000 P.S.I. high pressure hose.

Model DPG

\$20.00

TANK BOOT

Made of high quality rubber; ozone and salt water resistant. Supports tank in upright position. Recommended for use in pools and for home storage.

COLORS: Yellow — Blue — Black.

\$4.95
