Look to the Future . . .

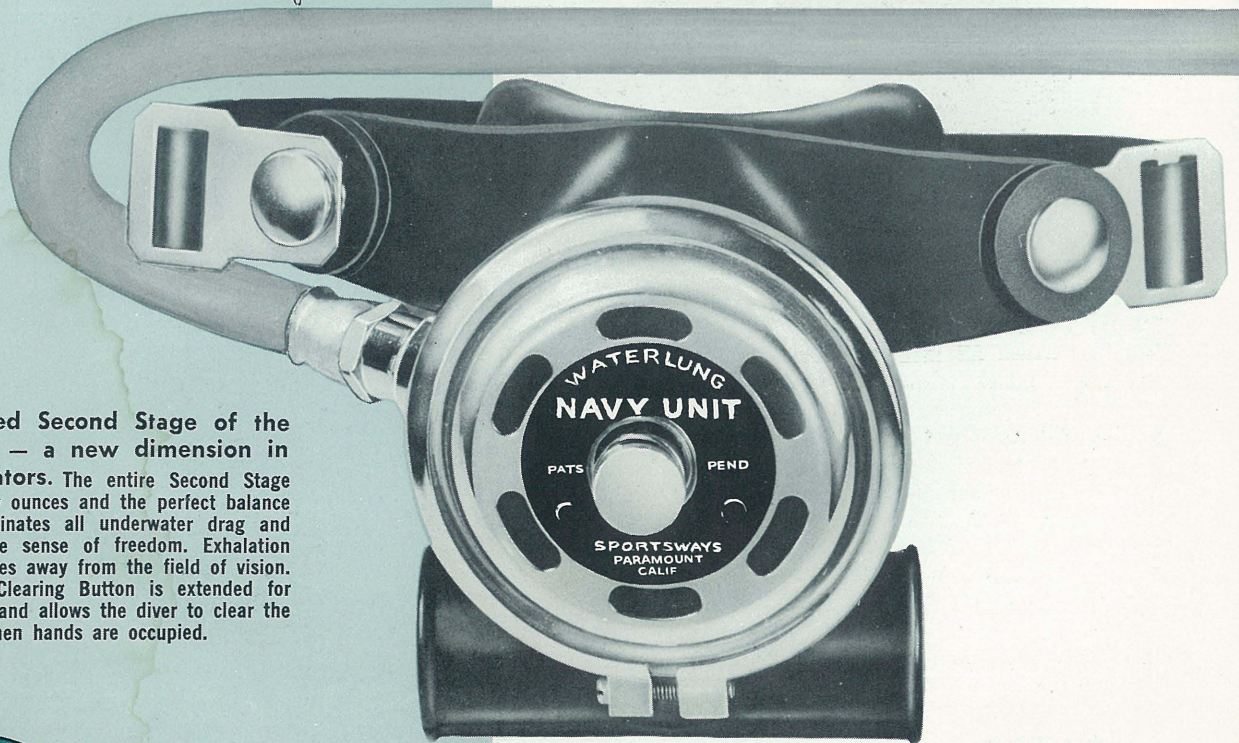

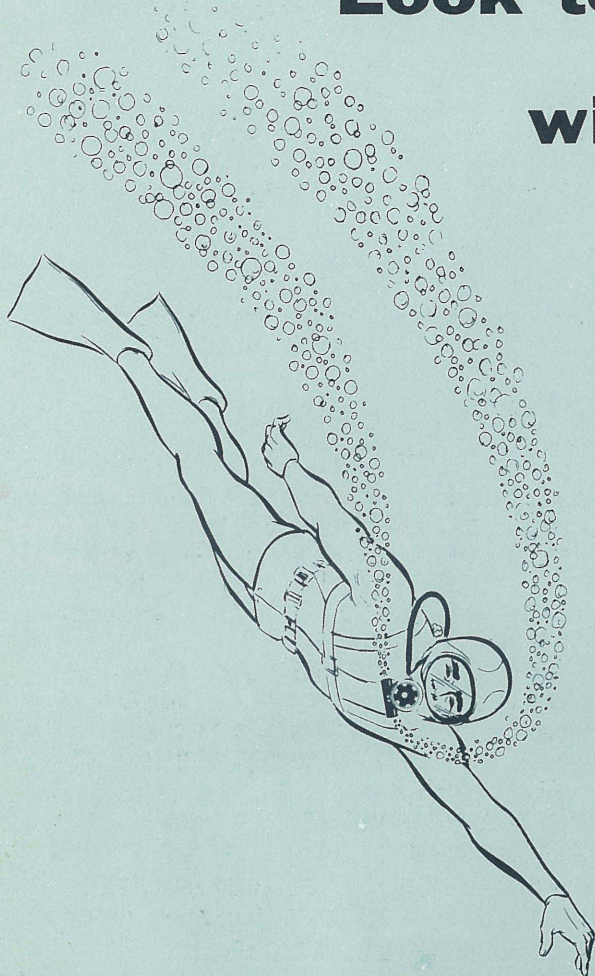

with **S** SPORTSWAYS

This year Sportsways has introduced more new products . . . more advanced products than any company in diving history. This has been made possible by concentrating our entire development efforts in one direction . . . functional diving equipment. Sportsways, alone in the field, is interested solely in products for the skin diver. Our line for this year is complete and is, without question, the best. We sincerely believe that our 1961 line represents the finest, as well as the most progressive diving products in the field . . . new Regulators . . . new Spear Guns . . . new Knife.

Our formula is simple. Sportsways does not introduce a new product unless it is *better than anything* in its category on the market. We feel justifiably proud of these new products . . . engineered for performance . . . constructed for durability.

Under the able leadership of Samuel Lecocq, Sportsways Research and Development Department will continue to provide the market with products that are tested, proven and worthy of Sportsways name.

Our pledge is to provide you with the best, most advanced diving equipment. We hope you, too, will
LOOK TO THE FUTURE WITH SPORTSWAYS!

The celebrated Second Stage of the **WATERLUNG** — a new dimension in diving regulators. The entire Second Stage weighs but a few ounces and the perfect balance of the unit eliminates all underwater drag and offers a complete sense of freedom. Exhalation Tee directs bubbles away from the field of vision. Manual Control Clearing Button is extended for maximum safety and allows the diver to clear the regulator even when hands are occupied.

SPORTSWAYS
WATERLUNG

REGULATORS

"The World's Most Advanced Diving Equipment"

The original WATERLUNG Regulators represent the greatest single advance in self-contained underwater breathing apparatus in years. A completely new concept, developed from extensive testing and advanced engineering, incorporating many new, exclusive features that make all other regulator systems obsolete. The WATERLUNG has achieved an incomparable record of perform-

ance throughout the world!

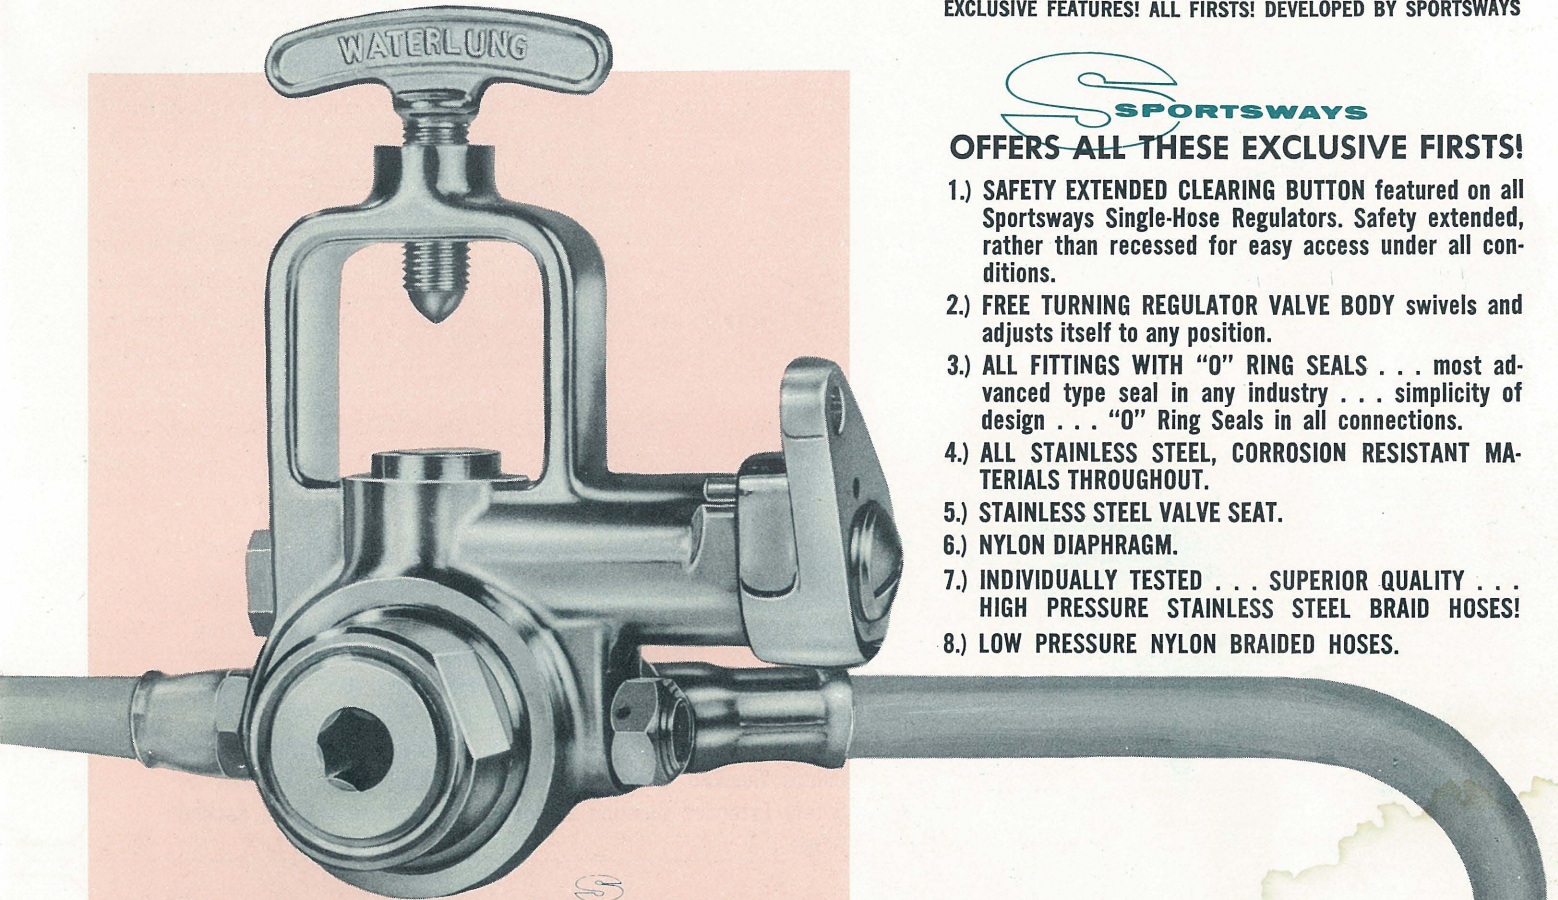

This year, Sportsways has developed three new Regulators, combining all the unequalled features of the WATERLUNG "SPORT DIVER" . . . the "MASTER DIVER" . . . the "DUAL AIR" . . . and the "NAVY UNIT". Incomparable, new equipment designed to meet the desires and needs of every diver.

EXCLUSIVE FEATURES! ALL FIRSTS! DEVELOPED BY SPORTSWAYS

OFFERS ALL THESE EXCLUSIVE FIRSTS!

- 1.) SAFETY EXTENDED CLEARING BUTTON featured on all Sportsways Single-Hose Regulators. Safety extended, rather than recessed for easy access under all conditions.
- 2.) FREE TURNING REGULATOR VALVE BODY swivels and adjusts itself to any position.
- 3.) ALL FITTINGS WITH "O" RING SEALS . . . most advanced type seal in any industry . . . simplicity of design . . . "O" Ring Seals in all connections.
- 4.) ALL STAINLESS STEEL, CORROSION RESISTANT MATERIALS THROUGHOUT.
- 5.) STAINLESS STEEL VALVE SEAT.
- 6.) NYLON DIAPHRAGM.
- 7.) INDIVIDUALLY TESTED . . . SUPERIOR QUALITY . . . HIGH PRESSURE STAINLESS STEEL BRAID HOSES!
- 8.) LOW PRESSURE NYLON BRAIDED HOSES.

"NAVY UNIT" WATERLUNG

THE ONLY REGULATOR EVER MADE INCORPORATING AN INTEGRAL 300 PSI SPRING-LOADED CONSTANT RESERVE!

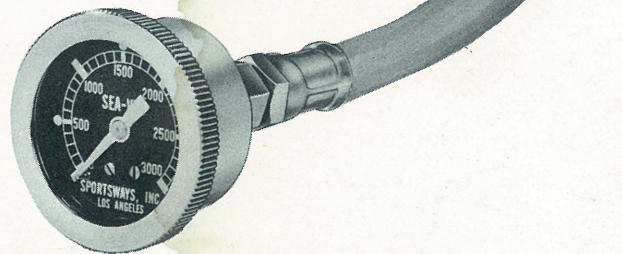

. . . specially designed by Sportsways to include all the incomparable features of the "SJ" Constant Reserve Valve plus all the outstanding features of the WATERLUNG! More advantages than any other regulator! Now, maximum safety inherent in a regulator for use with tank with any type valve.

The "NAVY UNIT" also includes "Hookah" and Sea-Vue Gauge connectors, as well as Safety Extended Clearing Button.

THE CRITERION FOR DIVING ENTHUSIASTS . . . THE MOST ADVANCED REGULATOR EVER DEVELOPED!

1315 "NAVY UNIT" WATERLUNG \$95.00
 1317 "NAVY UNIT" FIRST STAGE ONLY 60.00

1316 "NAVY UNIT" WATERLUNG
 with SEA-VUE GAUGE \$120.00

"MASTER DIVER" SPORTSWAYS WATERLUNG

All the basic features of the WATERLUNG with new exclusive Sportsways feature . . . advance engineered single forging making First Stage almost an integral part of valve . . . specifically designed for the diver . . . another Sportsways first! **PLUS** new compact design . . . minimum encumbrance . . . maximum durability . . . **PLUS** "Hookah" connector for optional use with surface air supply. "MASTER DIVER" includes Safety Extended Clearing Button, as well as Sea-View Gauge Port.

**"MASTER DIVER" - ANOTHER MAJOR ADVANCEMENT
IN SINGLE-HOSE REGULATORS**

1310 "MASTER DIVER" WATERLUNG	\$67.50
1311 "MASTER DIVER" WATERLUNG with SEA- VUE GAUGE	92.50

"SPORT DIVER" SPORTSWAYS WATERLUNG

The original WATERLUNG Regulator, nationally acclaimed for performance and popularity. Features amazing ease of breathing . . . design simplicity . . . rugged construction. Includes Sea-View Gauge connection on First Stage, as well as Safety Extended Clearing Button for instant clearing on Second Stage.

1301 "SPORT DIVER" WATERLUNG	\$49.95
1302 "SPORT DIVER" WATERLUNG with SEA- VUE GAUGE	74.95

"DUAL AIR" WATERLUNG

Furthest advanced, easiest breathing, most reliable Two-Hose, Two-Stage Regulator ever manufactured! Features the celebrated WATERLUNG First Stage with a compact Second Stage housing that encases a specially large Diaphragm with Sportsways advanced Tilt Valve and Venturi action design . . . affording unequalled breathing sensitivity.

"DUAL AIR" provides complete ease of breathing under all conditions, at any depth. Includes "Hookah" and Sea-Vue Gauge connectors.

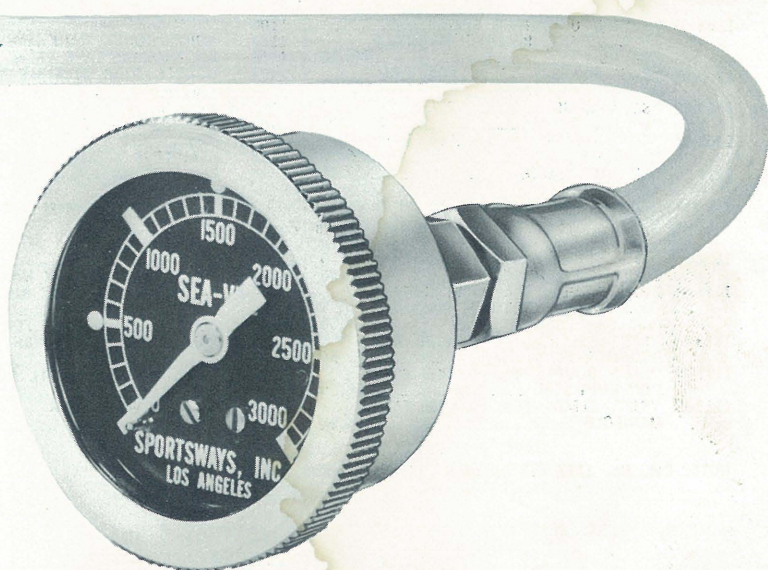

THE MOST VERSATILE TWO-HOSE REGULATOR EVER MADE!

- 1325 "DUAL AIR" WATERLUNG \$ 90.00
- 1326 "DUAL AIR" WATERLUNG with SEA-VUE GAUGE... 115.00

SEA-VUE PRESSURE GAUGE

A vitally important unit which, when attached, becomes an integral part of all Sportsways WATERLUNG Regulators . . . enables the diver to see at a glance remaining air supply at all times. Completely pressureproof, durable and easy to maintain. Features newly developed high pressure hose with new internal stainless steel braid . . . encased in Chrome-plated brass case . . . all "O" Ring sealed. ALL WATERLUNG Regulators have connector for easy installation. A NECESSARY SAFETY FACTOR IN DIVING . . . the equivalent of a fuel gauge in flying . . . A MUST FOR ALL DIVERS!

- 1401 SEA-VUE PRESSURE GAUGE \$24.95

TANK VALVES and ACCESSORIES

SPORTSWAYS TANK VALVES ARE THE ONLY COMPLETE VALVE LINE DESIGNED SPECIFICALLY FOR DIVING!

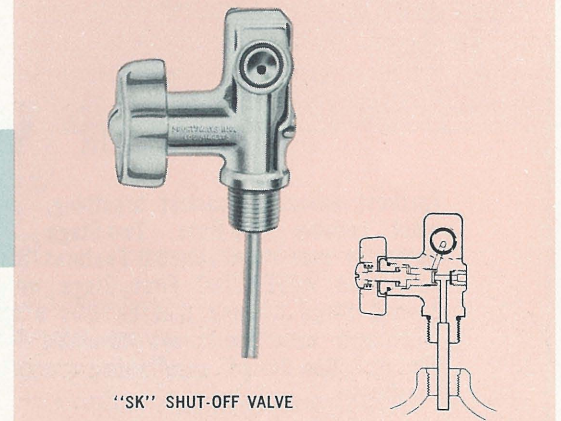

Engineered to present a practical, reliable valve for maximum utility . . . many exclusive advantages:

- 1) **New, large, easy-to-turn Shut off Knob on the side** . . . makes obsolete all existing diving and medical valves with hard-to-turn knob on top. Allows Regulator to be easily positioned on valve outlet . . . 1" shorter than all other tank valves.
- 2) **New, small "O" Ring** with large seating area insures perfect seal for all make regulators.
- 3) **Available with 1/2" Standard Pipe Thread** or with Sportsways new 3/4" "O" Ring Seal Straight Thread . . . eliminating sealing compounds, heavy wrenches . . . valves go on or off the tank, literally by hand. "O" Ring Seal permits quick inside tank inspection.
- 4) **Exclusive "Safety Port"** which vents off pressure and provides warning, preventing accidental valve removal.
- 5) **Completely corrosion resistant materials and finishes** . . . Sportsways Reserve Mechanism made of all Stainless Steel and permanently lubricated with dry baked-on process . . . an exclusive Sportsways feature . . . both Stems are Stainless Steel.
- 6) **90% of all Sportsways Valve Parts are interchangeable** between valves . . . an important inventory and maintenance advantage!

The Constant Reserve Valve is a warning to the diver that a pre-determined amount of pressure is held back in the tank by way of a spring-loaded mechanism which closes the normal flow of air when the pressure of the air supply is reduced to approximately 300 PSI. By pulling the Reserve Arm down, an orifice is opened, thereby allowing the remaining air supply or "reserve" to be used by the diver.

"SJ" CONSTANT RESERVE VALVE

"SK" SHUT-OFF VALVE

1102 "SJ" SPRING-LOADED CONSTANT RESERVE VALVE (300 PSI)\$30.00
1/2" Standard Pipe Thread

"SJ" DEMOUNTABLE PORTABLE SPRING-LOADED CONSTANT RESERVE VALVE

A vital accessory that provides single tanks with standard high pressure valves with an assured 300 PSI reserve air supply for maximum safety. Fits all "K" or standard type valves. Makes every "K" valve a Spring-Loaded Constant Reserve Valve.

1101 "SJ" DEMOUNTABLE PORTABLE SPRING-LOADED CONSTANT RESERVE VALVE\$30.00

TANKS - TANK BLOCKS - TANK ACCESSORIES

Sportsways 1961 Tank Blocks represent a combination of engineering achievements. All assemblies include not only Sportsways celebrated Valves, but also the all-new "CAM-PAC" Tank Pack. The "CAM-PAC" . . . the ultimate in comfort, ease-of-handling and rugged durability . . . standard equipment with 1961 Tank Blocks!

All Sportsways Tanks feature the 3/4" opening with "O" Ring Seal Straight Thread. When the tank is empty, the valve can be easily removed for visual inspection without special tools. Sportsways Valves have exclusive "Safety Port" that vents off pressure and provides warning, preventing accidental removal when there is air pressure in the tank.

The Tanks themselves are made of chrome molybdenum steel and are I.C.C. approved, 71.2 cu. ft., 2250 PSI. With an extra heavy, hot-dipped galvanized exterior finish, Sportsways Tanks are also available in International Orange, the most visible safety color both underwater and on the surface. The color chosen by the Coast Guard and Armed Forces as their safety color!

SPORTSWAYS WATERLUNG

WATERLUNG "HOOKAH" UNIT

The Sportsways WATERLUNG "Hookah" Unit is designed for maximum efficiency and minimum restriction. Specially designed harness allows full freedom of movement. "Hookah" Unit includes Backplate, One-Way Check Valve and the incomparable WATERLUNG Second Stage.

"HOOKAH" EQUIPMENT

A "Hookah" Unit simply combines the WATERLUNG Regulator and a surface air supply. The unit is connected to a surface air source by a medium pressure hose. Ideal for diving in a limited area for extended periods of time, such as for gold diving or many types of underwater repair and salvage.

Sportsways three new 1961 WATERLUNG Regulators—the "NAVY UNIT", "DUAL AIR" and the "MASTER DIVER", all include a "Hookah" connector that receives the "Hookah" Hose for use with a surface air supply.

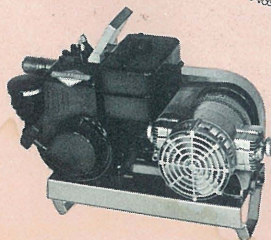

SPORTSWAYS WATERLUNG "HOOKAH" UNIT

THE ONLY UNIT SPECIFICALLY DESIGNED FOR "HOOKAH" DIVING . . . universally used as the most functional and practical unit of its kind. Because of the simplicity of design and rugged construction plus ease of breathing (maximum flow of air with minimum pressure and volume), gold divers and pearl divers throughout the world give the WATERLUNG "HOOKAH" UNIT unequivocal endorsement.

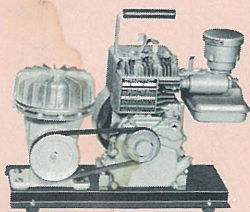

The WATERLUNG "HOOKAH" UNIT is a special combination which features the Second Stage of the WATERLUNG Regulator with its rugged, flexible braided Nylon Hose. The hose is connected to a special fitting and a One-Way Check Valve . . . for attaching the "Hookah" Hose. This unit has a special "Hookah" Harness and Backplate to position it on the diver's back . . . ultimate comfort!

DIVING WATCHES

This year Sportsways introduces a complete line of watches designed specifically for divers . . . two new, exceptionally attractive, functional models — the "MARINER" and the "MERMAID".

In the "MARINER" and "MERMAID" Sportsways presents a very important first . . . new TRITIUM is used instead of radium for luminous markings, eliminating adverse radiation effects.

ATLAS "600"

A completely automatic, self-winding watch. Pressure-proof, waterproof with enameled time lapse bezel and window calendar. Fully guaranteed, the finest underwater watch made. 17 Jewels. Black Tropic Strap.

Cat. No. 1407—ATLAS "600"\$79.95

"MARINER"

An all new diving watch, representing the finest all-around value in diving watches. Includes time lapse bezel. 17 Jewel movement. Luminous Tritium markings. Manual wind. All stainless steel construction. Pressure tested and guaranteed to 300 ft. Black Tropic Strap.

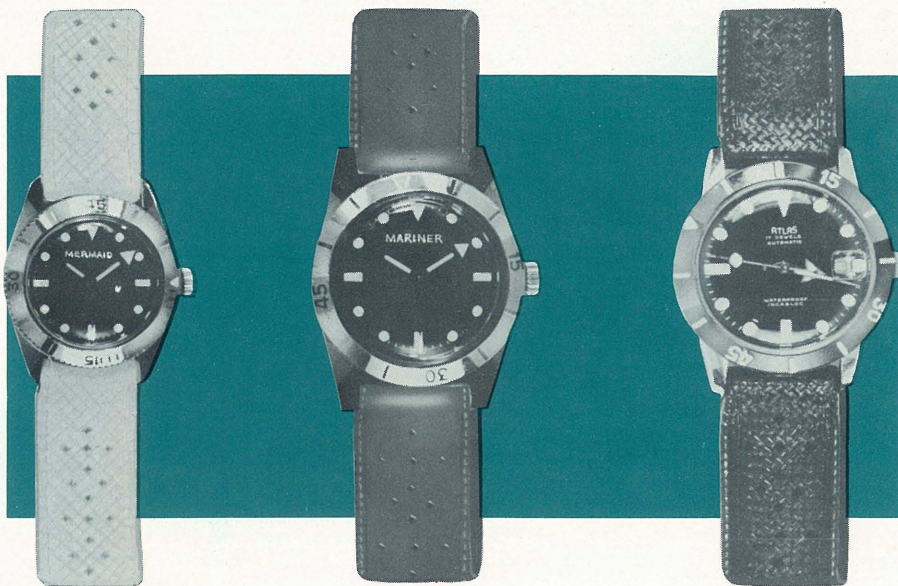

Cat. No. 1408—"MARINER"\$42.50

"MERMAID"

Finally, an extremely attractive watch designed specifically for feminine divers. Proportioned and styled for the fairer sex, the "MERMAID" includes all the features of the "MARINER" . . . Pressureproof, manual wind, Tritium, 17 Jewel movement. White Tropic Strap.

Cat. No. 1409—"MERMAID"\$45.00

**Deliveries on the "MARINER" and "MERMAID" will begin April 1, 1961.

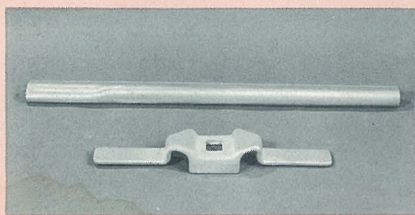

"MERMAID"

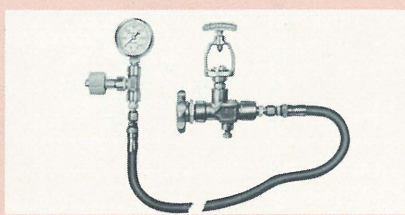

"MARINER"

ATLAS "600"

WEIGHT BELTS (without weights)

Cat. No. 1288	1" Standard Weight Belt	2.50
Cat. No. 1289	2" Pro Weight Belt	3.95

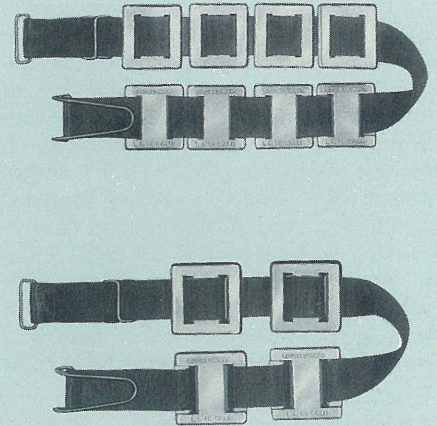

WEIGHTS (Sold Separately)

Sportsways features Lead Weights to fit both the 1" and 2" Belts. "Snug-Fit" Weights are made to fit the 2" Pro Belts in both 1 lb. and 3 lb. sizes . . . new contoured design permits the 1 lb. weights to be sandwiched together . . . running belt through it in total weight in each location as desired. Designed so that the belt pressure is exerted from the outside and pulls the weights in close to the body.

Cat. No. 1285-01	Standard 1 lb. Lead Weights (fit the 1" Standard Belt)	\$ 1.00
Cat. No. 1286-01	"Snug Fit" 1 lb. Lead Weight (fits the 2" Pro Weight Belt)	1.00
Cat. No. 1287-01	"Snug-Fit" 3 lb. Lead Weight (fits the 2" Pro Weight Belt)	2.95

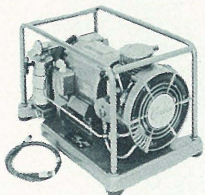

QUICK-RELEASE SAFETY BUCKLES (Stainless Steel)

Cat. No. 1285-02	1" Quick-Release Safety Buckle Assembly	\$ 1.65
Cat. No. 1286-02	2" Quick-Release Safety Buckle Assembly	1.75

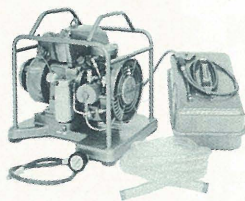

Cornelius PORTABLE HIGH PRESSURE AIR COMPRESSORS

Sportsways has chosen Cornelius Compressors for their all 'round utility and performance. The Cornelius Company leads the field in designing high pressure air compressors, especially designed to provide pure compressed air to 3000 PSI. Capacity 4 C.F.M.

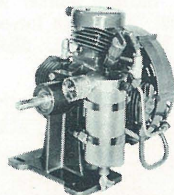

3800102\$1,395.00

3 H.P., 220/440 volt, 3 phase, 60 cycle electric motor. Adjustable pressure switch included with motor starter. Recommended for a semi or permanent installation. Pressure switch automatically stops compressor when desired pressure is reached. To restart unit, simply press starter button. Wt. approx. 120 lbs.

3800103\$1,395.00

Powered with a rugged, efficient and dependable 4 cycle, 7 H.P. Kohler air-cooled gasoline engine. Engine equipped with recoil starter and fuel pump with separate fuel tank. This model not equipped with pressure switch. Wt. approx. 115 lbs.

3800104\$945.00

Designed for those who have their own gasoline engine, electric motor or a power take off. This unit is assembled on a cast iron bracket with convenient predrilled mounting holes in bracket base. Equipped with 3/4" keyed shaft to accommodate a V-belt pulley.

SPORTSWAYS FINS - SNORKELS

"MANTA" FINS

The classic "MANTA" Fin incorporates more outstanding features and exclusive advantages than any other fin. Designed by Tigullio, the originator of the full-foot fin . . . the most comfortable foot pocket ever made . . . ideal for use with or without boots. The unique "MANTA" design offers the ideal combination of maximum power, complete comfort and rugged durability. Exclusive compounding provides the "MANTA'S" large, symmetrical blade with added snap for extra thrust. Used in recent world record-breaking 151 free dive, "MANTA" Fins are now the first choice among free divers. Now available in JET BLACK or BLUE, in a complete range of sizes with single size variance for perfect fit.

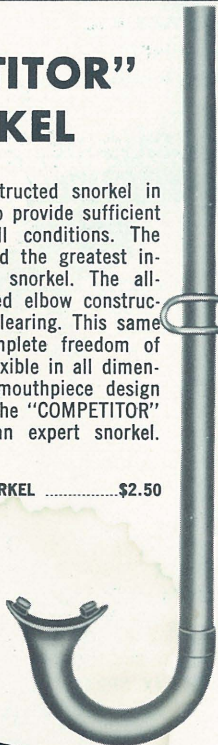

JET BLACK	BLUE	SIZES	
1501.....	1601	1 — 2	\$ 6.95
1502.....	1602	2½— 3½	6.95
1503.....	1603	4 — 5	7.95
1504.....	1604	5½— 6½	9.95
1505.....	1605	7 — 8	9.95
1506.....	1606	8½— 9½	9.95
1507.....	1607	10 —11	10.95
1508.....	1608	11½—13	11.95

"COMPETITOR" SNORKEL

The only Neoprene constructed snorkel in the field . . . designed to provide sufficient volume of air under all conditions. The internal dimensions afford the greatest inhalation volume of any snorkel. The all-rubber, one-piece moulded elbow construction allows quick, easy clearing. This same construction permits complete freedom of movement. Completely flexible in all dimensions with a contoured mouthpiece design . . . maximum comfort. The "COMPETITOR" answers the need for an expert snorkel. Jet Black.

1614—"COMPETITOR" SNORKEL\$2.50

"BLUE MANTA" Snorkel

All-rubber, flexible snorkel with conventional "J" design for easy clearing. Non-snagging, non-vibrating design. Blue.

1613—"BLUE MANTA" SNORKEL\$1.95

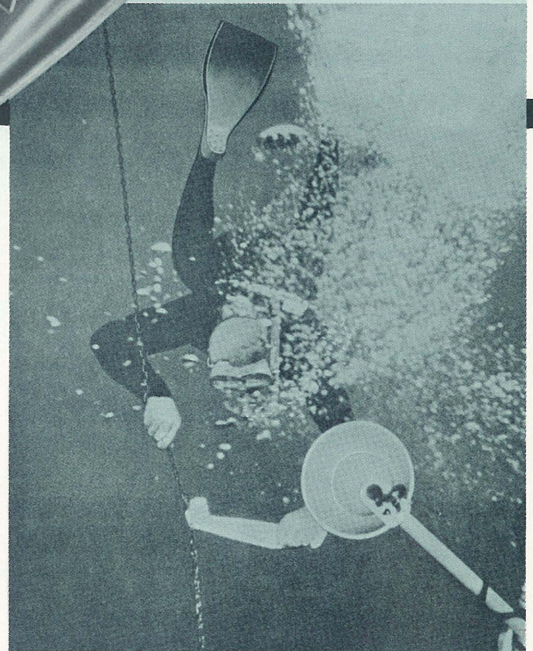

"MARINER" Snorkel

The "MARINER" snorkel features a bellows type mouthpiece for maximum comfort. Special design eliminates oral fatigue and mouth irritation . . . all-rubber construction, completely flexible. Blue.

1612—"MARINER" SNORKEL \$1.95

"MARINER" SNORKEL

"BLUE MANTA" SNORKEL

WORLD'S FREE DIVING RECORD SHATTERED WITH Sportsways "MANTA" FINS

Actual photograph of Amerigo Santarelli achieving world record depth in a 150 foot free dive in Italy's famed Circeo Capo.

At this depth it is believed he reached the limit of the human body's capacity to withstand pressure. (Approximately 64 pounds per square inch).

White scarf clutched by Santarelli, marks the record depth.

SPORTSWAYS DIVING MASKS

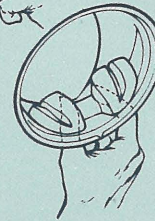

"VISTA-VUE" MASK

The "VISTA-VUE" Mask designed to incorporate the most important features desirable in a diving mask! The close-in-to-the-eyes design provides a maximum field of vision, particularly, in all the important overhead area and at the same time reduces displacement to a minimum. The finely beveled edge provides a positive, comfortable seal under all conditions. Highest quality rubber affords light construction. Tempered safety glass lens with exclusive "Pressure-Lock" stainless steel mask band. A perfect fit for any shape face!

1609	"VISTA-VUE" MASK—French Blue	\$4.95
1610	"VISTA-VUE" MASK—International Orange	4.95
1611	"VISTA-VUE" MASK—Black Neoprene	5.50

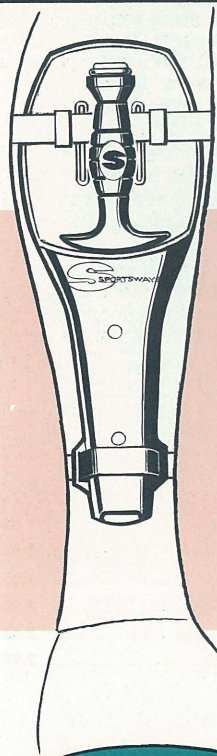

Places nose in perfect position for equalizing pressure.

"EQUALIZER" MASK

the combination of advanced "VISTA-VUE" construction plus the integral equalizing feature makes the "EQUALIZER" the most versatile mask in the field! Deep-set, easy-to-reach recessions permit quick pressure relief without removing the mask. The ultimate in pressure equalizing design. A perfect fit everytime! EXCLUSIVE DESIGN: IT'S IMPOSSIBLE TO BREAK THE SEAL WHEN EQUALIZING PRESSURE!

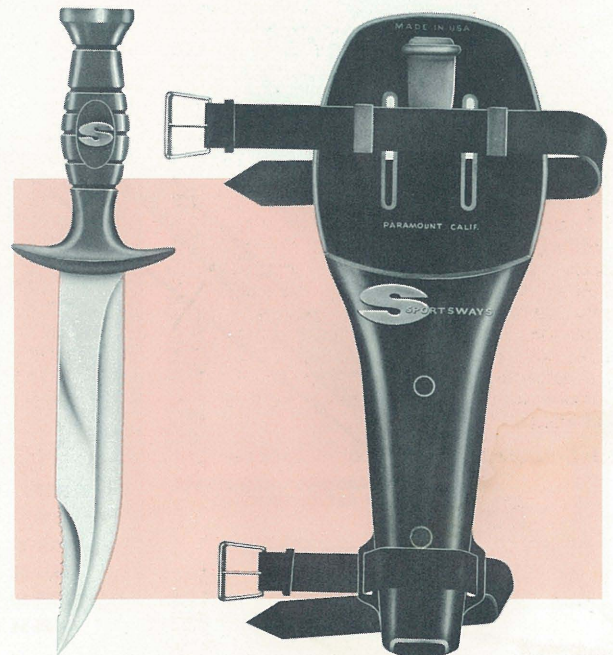

1616	"EQUALIZER" MASK—French Blue	\$5.95
1617	"EQUALIZER" MASK—International Orange	5.95
1618	"EQUALIZER" MASK—Black Neoprene	6.50

SPORTSWAYS DIVER KNIFE

This superb knife fills all the requirements for the diver . . . a sturdy working tool . . . a defensive weapon and abalone iron. The extra-wide 7" blade is specially hardened stainless steel alloy, strong enough to pry or pound. Blade also features full length cutting edge with concave serrated area on opposite edge for maximum utility. Completely shock resistant, Jet Black, one-piece Guard and Handle . . . Cyclocac molded for maximum comfort and safety . . . can be used for pounding. A specially designed salt water and weather resistant, injection molded high quality Plastic Leg Sheath . . . comfort contoured . . . can be either strapped to the diver's calf or slipped on the weight belt. THE FINEST, MOST VERSATILE KNIFE EVER DEVELOPED FOR DIVING!

1630 SPORTSWAYS DIVER KNIFE complete with Sheath\$9.95

SPORTSWAYS SPEAR GUNS

The ultimate in Spear Guns! This year Sportsways introduces an all-new, custom designed Spear Gun in two models . . . based on principles developed for maximum power . . . maximum accuracy . . . maximum durability. Never before have so many new features been incorporated in a spear gun design.

NEW CONSTRUCTION FEATURES! Handle and Muzzle assemblies are specially designed for performance and constructed of high impact resistant Cyclac . . . a new concept in spear gun construction which contributes to unequalled ease of handling and durability. This exclusive feature eliminates the problem of internal corrosion once and for all. At the same time, its inherent lightness allows unprecedented maneuverability underwater.

NEW! "O" RING SEALS IN BARREL. The first foolproof seal against water and pressure in spear gun history. Permits easy assembly and disassembly of gun. Keeps gun light and maneuverable under all conditions and at all depths. Gun floats after firing.

NEW! TRIGGER MECHANISM DESIGN offers several unique, important advantages . . . leverage system eliminates trigger pull resistance, no matter how many slings are used. Important safety factor . . . Sportsways guns cannot be accidentally fired from a jolt or bump, as other guns. All Stainless Steel.

NEW! COCKING STOCK lends balance for more accuracy and quicker handling. Most important, the cocking stock makes "loading" a great deal more comfortable and because of extended leverage, easier, allowing the spearfisherman to load much more powerful slings. Hence, Sportsways Spear Guns pack much more "punch" than any other guns.

NEW! AUTOMATIC LINE RELEASE eliminates drag and veer . . . carries unlimited amount of line . . . located in the proper position for quick rigging and out of the way of the hands when firing . . . permits use of a "break-away" pack, when desired.

NEW! SHAFT DESIGN. All stainless steel shaft . . . stainless steel spearheads. Grooved end permits positioning of shaft thereby preventing slipping or rolling when loading. "COMPETITOR" model shafts have notches to accommodate three slings. Pure surgical gum rubber slings for more power, faster action.

NEW! MUZZLE DESIGN of famous, proven Cyclac . . . cuts the forward weight to a minimum . . . another Sportsways first! Complete accuracy! Allows quick sling changes . . . accommodates up to three slings . . . allows more variable in power than any other gun . . . includes "sight" and line holder.

1635	"COMPETITOR" SPEAR GUN with Stainless Steel Two Barb Spearhead	\$27.50
1636	"SPORTSMAN" SPEAR GUN with Stainless Steel Single Barb Spearhead	19.95
1635-51	SINGLE BARB SPEARHEAD—Stainless Steel	1.95
1635-52	TWO-BARB SPEARHEAD—Stainless Steel Retractable	2.95
1635-53	THREE PRONG TRIDENT SPEARHEAD—Stainless Steel	2.95
1635-54	DETACHABLE HEAD—Stainless Steel	2.95
